Justice), is amended by inserting after section 873 (article 73) the following new section (article):

§ 873a. Art. 73a. Petition for DNA testing

(a) IN GENERAL.—Upon a written petition by an accused sentenced to imprisonment or death pursuant to a conviction under this chapter (referred to in this section as the ‘applicant’), the Judge Advocate General shall order DNA testing of specific evidence if the Judge Advocate General finds that all of the following apply:

(1) The applicant asserts, under penalty of perjury, that the applicant is actually innocent of the offense for which the applicant is sentenced to imprisonment or death.

(2) The specific evidence to be tested was secured in relation to the investigation or prosecution of the offense referenced in the applicant’s assertion under paragraph (1).

(3) The specific evidence to be tested—

(A) was not previously subjected to DNA testing and the applicant did not knowingly fail to request DNA testing of that evidence in a prior motion for postconviction DNA testing; or

(B) was previously subjected to DNA testing and the applicant is requesting DNA testing using a new method or technology that
is substantially more probative than the prior DNA testing.

“(4) The specific evidence to be tested is in the possession of the Government and has been subject to a chain of custody and retained under conditions sufficient to ensure that such evidence has not been substituted, contaminated, tampered with, replaced, or altered in any respect material to the proposed DNA testing.

“(5) The proposed DNA testing is reasonable in scope, uses scientifically sound methods, and is consistent with accepted forensic practices.

“(6) The applicant identifies a theory of defense that—

“(A) is not inconsistent with an affirmative defense presented at trial; and

“(B) would establish the actual innocence of the applicant of the offense referenced in the applicant’s assertion under paragraph (1).

“(7) If the applicant was convicted following a trial, the identity of the perpetrator was at issue in the trial.

“(8) The proposed DNA testing of the specific evidence may produce new material evidence that would—
“(A) support the theory of defense referenced in paragraph (6); and

“(B) raise a reasonable probability that the applicant did not commit the offense.

“(9) The applicant certifies that the applicant will provide a DNA sample for purposes of comparison.

“(10) The petition is made in a timely fashion, subject to the following conditions:

“(A) There shall be a rebuttable presumption of timeliness if the petition is made within five years of the enactment of the National Defense Authorization Act for Fiscal Year 2022 or within three years after the date of the entry of judgment under section 860c of this title (article 60c), whichever comes later. Such presumption may be rebutted upon a showing—

“(i) that the applicant’s petition for a DNA test is based solely upon information used in a previously denied motion; or

“(ii) of clear and convincing evidence that the applicant’s filing is done solely to cause delay or harass.

“(B) There shall be a rebuttable presumption against timeliness for any petition not sat-
isfying subparagraph (A) above. Such presumption may be rebutted upon the Judge Advocate General’s finding—

“(i) that the applicant was or is incompetent and such incompetence substantially contributed to the delay in the applicant’s motion for a DNA test;

“(ii) the evidence to be tested is newly discovered DNA evidence;

“(iii) that the applicant’s petition is not based solely upon the applicant’s own assertion of innocence and, after considering all relevant facts and circumstances surrounding the petition, a denial would result in a manifest injustice; or

“(iv) upon good cause shown.

“(C) For purposes of this paragraph—

“(i) the term ‘incompetence’ has the meaning given that term in section 876b of this chapter (article 76b);

“(ii) the term ‘manifest’ means that which is unmistakable, clear, plain, or indisputable and requires that the opposite conclusion be clearly evident.
“(b) APPEAL OF DENIAL.— The applicant may appeal the Judge Advocate General’s denial of the petition of DNA testing to the Court of Appeals for the Armed Forces.

“(c) EVIDENCE INVENTORY; PRESERVATION ORDER; APPOINTMENT OF COUNSEL.—

“(1) INVENTORY.—The Judge Advocate General shall order the preparation of an inventory of the evidence related to the case for which a petition is made under subsection (a), which shall be provided to the applicant.

“(2) PRESERVATION ORDER.—To the extent necessary to carry out proceedings under this section, the Judge Advocate General shall direct the preservation of the specific evidence relating to a petition under subsection (a).

“(3) APPOINTMENT OF COUNSEL.—The applicant shall be eligible for representation by appellate defense counsel under section 870 of this chapter (article 70).

“(d) TESTING COSTS.—The costs of any DNA testing ordered under this section shall be paid by the Government.

“(e) TIME LIMITATION IN CAPITAL CASES.—In any case in which the applicant is sentenced to death—
“(1) any DNA testing ordered under this section shall be completed not later than 60 days after the date on which the test is ordered by the Judge Advocate General; and

“(2) not later than 120 days after the date on which the DNA testing ordered under this section is completed, the Judge Advocate General shall order any post-testing procedures under subsection (f) or (g), as appropriate.

“(f) DISCLOSURE OF TEST RESULTS.—Reporting of test results shall be simultaneously disclosed to the Government and the applicant.

“(g) POST-TESTING PROCEDURES; INCONCLUSIVE AND INCULPATORY RESULTS.—

“(1) INCONCLUSIVE RESULTS.—If DNA test results obtained under this section are inconclusive, the Judge Advocate General may order further testing, if appropriate, or may deny the applicant relief.

“(2) INCULPATORY RESULTS.—If DNA test results obtained under this section show that the applicant was the source of the DNA evidence, the Judge Advocate General shall—

“(A) deny the applicant relief; and
“(B) if the DNA test results relate to a State offense, forward the finding to any appropriate State official.

“(h) POST-TESTING PROCEDURES; MOTION FOR NEW TRIAL OR RESENTENCING.—

“(1) IN GENERAL.—Notwithstanding any provision of law that would bar a motion under this paragraph as untimely, if DNA test results obtained under this section exclude the applicant as the source of the DNA evidence, the applicant may file a petition for a new trial or resentencing, as appropriate.

“(2) STANDARD FOR GRANTING MOTION FOR NEW TRIAL OR RESENTENCING.—The applicant’s petition for a new trial or resentencing, as appropriate, shall be granted if the DNA test results, when considered with all other evidence in the case (regardless of whether such evidence was introduced at trial), establish by compelling evidence that a new trial would result in the acquittal of the applicant.

“(i) RELATIONSHIP TO OTHER LAWS.—

“(1) POST-CONVICTION RELIEF.—Nothing in this section shall affect the circumstances under which a person may obtain DNA testing or post-conviction relief under any other provision of law.
“(2) HABEAS CORPUS.—Nothing in this section shall provide a basis for relief in any Federal habeas corpus proceeding.”.

SEC. 747. SENSE OF CONGRESS ON NATIONAL WARRIOR
CALL DAY.

(a) FINDINGS.—Congress finds the following:

Call Day” will draw attention to those members of
the Armed Forces whose connection to one another
is key to our veterans and first responders who may
be dangerously disconnected from family, friends,
and support systems.

Armed Forces serving on active duty increased to
377 in 2020, a figure up from 348 the previous
year.

(9) Invisible wounds linked to an underlying and undiagnosed traumatic brain injury can mirror many mental health conditions, a problem that can be addressed through connections to members of the Armed Forces and veterans who can better identify and address these wounds.

(b) SENSE OF CONGRESS.—It is the sense of Congress that Congress—

(1) supports the designation of a “National Warrior Call Day”;

(2) encourages all Americans, especially members of the Armed Forces serving on active duty and veterans, to call up a warrior, have an honest conversation, and connect them with support, understanding that making a warrior call could save a life; and

(3) implores all Americans to recommit themselves to engaging with members of the Armed Forces through “National Warrior Call Day” and constructive efforts that result in solutions and treatment for the invisible scars they carry.

SEC. 1302. SENSE OF CONGRESS ON UNITED STATES DEFENSE POSTURE IN EUROPE.

It is the sense of Congress as follows:

(1) The United States is steadfastly committed to upholding and strengthening its defense alliances and partnerships in the European theater. The North Atlantic Treaty Organization (NATO) alliance is the bedrock of these relationships, which are central to deterring Russian aggression, upholding territorial integrity and sovereignty in Europe, countering malign efforts to undermine the rules-based international order and disrupt shared values, fostering international cooperation against collective challenges, and advancing shared national security objectives worldwide.
(2) United States allies in Europe have made substantial strides on responsibility-sharing and defense investment since the Wales Declaration in 2014 and should be commended for their ongoing efforts to increase complementary investments in NATO deterrence capacity. These efforts have provided an accumulated increase of more than $130,000,000,000 in foreign investments between 2016 and 2020 to strengthen trans-Atlantic security, and it is essential that the United States continue to press NATO allies to achieve their Wales Summit pledges and continue to make progress on greater complementary defense investments.

(3) The behavior of the Russian Government has not improved and has, in many aspects, become increasingly belligerent since the invasion of Ukraine in 2014, with respect to—

(A) military efforts to disrupt the territorial integrity of sovereign countries in Europe;

(B) threats against the United States, NATO, and other United States partners;

(C) intervention in allied democratic processes;
(D) efforts to disrupt United States alliances, partnerships, and values;

(E) acts such as assassination and the use of chemical weapons on the territory of other sovereign countries; and

(F) other high-risk, disruptive efforts.

(4) Continued commitment to enhancing the United States and allied force posture in Europe is indispensable for efforts to establish and sustain a credible deterrent against Russian aggression and long-term strategic competition by the Russian government. The Secretary of Defense must continue to—

(A) support the European Deterrence Initiative and other investments in a strengthened United States and allied force posture in Europe;

(B) support rotational deployments and robust exercises in the European theater;

(C) complete efforts to establish prepositioned stocks and effective staging infrastructure to maintain credible deterrence against Russian threats;

(D) invest effectively in multi-service, cyber, information, and air defense efforts to
counter modern military challenges, enhance the survivability and flexibility of the United States force posture, logistics, and planning; and

(E) consider whether additional forward-positioned forces in Europe would reduce cost and strain, enhance credibility, and strengthen capabilities.

SEC. 1303. SENSE OF CONGRESS ON SECURITY ASSISTANCE TO THE BALTIC COUNTRIES.

(a) FINDINGS.—Congress finds the following:

(1) The United States has cumulatively allocated over $498,965,000 in Department of Defense partner capacity funding for the Baltic countries since fiscal year 2018, including over $219,000,000 for the Baltic security efforts known as the “Baltic Security Initiative”, executed using sections 332 and 333 of title 10, United States Code, including assistance with respect to air defense, maritime situational awareness, ammunition, C4ISR, anti-tank capability, special forces, and other defense capabilities.

(2) The Secretary of Defense has completed the comprehensive Baltic Defense Assessment required by section 1246 of the National Defense Authoriza-
tion Act for Fiscal Year 2020 and has recommended continued robust, comprehensive investment Baltic security efforts in accordance with that assessment, with assistance executed using such sections 332 and 333.

(3) The Secretary of Defense has assessed that the authority granted by such sections 332 and 333 affords the most efficient and effective authority to provide this assistance to the Baltic countries, and that attempting to provide the assistance pursuant to alternate authorities would hamper the Department’s ability to deliver assistance and implement the investment program established by the Baltic Defense Assessment.

(b) Sense of Congress.—Congress strongly supports the robust assistance to accomplish United States strategic objectives in accordance with sections 332 and 333 of title 10, United States Code, including by providing assistance to the Baltic countries using those sections, funded by the Baltic Security Initiative. It is the sense of Congress that the security of the Baltic region is crucial to the security of the NATO alliance and these efforts are critical to ensure continued deterrence against Russian aggression and bolster allied security.

(1) the Space Force, in collaboration with the United States Space Command, the military departments, relevant Defense Agencies and, where practicable, the National Reconnaissance Office, should continue to build on the successful Space Safari tactically responsive launch-2 mission of the Space Force, which was a pathfinder to inform concepts of operation regarding tactically responsive launches; and

(2) future efforts regarding tactically responsive launches should not be limited to only launch capabilities, but should also include all aspects that are needed for rapid reconstitution and responsiveness to urgent requirements with respect to satellite buses, payloads, operations, and ground infrastructure.
(b) PROGRAM.—Section 1609 of the William M. (Mac) Thornberry National Defense Authorization Act for Fiscal Year 2021 (Public Law 116–283) is amended—

“(a) REQUIRED EXERCISES.—Except as provided by subsection (b), beginning 2022, the President shall participate in a large-scale exercise of the nuclear command, control, and communications system during the first year of each term of the President, and may participate in such additional exercises as the President determines appropriate.

“(b) WAIVER.—The President may waive, on a case-by-case basis, the requirement to participate in an exercise under subsection (a) if the President—

“(1) determines that participating in such an exercise is infeasible by reason of a war declared by Congress, a national emergency declared by the President or Congress, a public health emergency declared by the Secretary of Health and Human Services under section 319 of the Public Health
Service Act (42 U.S.C. 247d), or other similar exigent circumstance; and

SEC. 1623. REVIEW OF SAFETY, SECURITY, AND RELIABILITY OF NUCLEAR WEAPONS AND RELATED SYSTEMS.

(a) FINDINGS.—Congress finds the following:
(1) On December 20, 1990, Secretary of Defense Cheney chartered a five-person independent committee known as the Federal Advisory Committee on Nuclear Failsafe and Risk Reduction to assess the capability of the nuclear weapon command and control system to meet the dual requirements of assurance against unauthorized use of nuclear weapons and assurance of timely, reliable execution when authorized, and to identify opportunities for positive measures to enhance failsafe features.

(2) The Federal Advisory Committee, chaired by Ambassador Jeane J. Kirkpatrick, recommended changes in the nuclear enterprise, as well as policy proposals to reduce the risks posed by unauthorized launches and miscalculation.

(3) The Federal Advisory Committee found, unambiguously, that “failsafe and oversight enhancements are possible”.

(4) Since 1990, new threats to the nuclear enterprise have arisen in the cyber, space, and information warfare domains.

(5) Ensuring the continued assurance of the nuclear command, control, and communications infrastructure is essential to the national security of the United States.
(b) REVIEW.—The Secretary of Defense shall provide for the conduct of an independent review of the safety, security, and reliability of covered nuclear systems. The Secretary shall ensure that such review is conducted in a manner similar to the review conducted by the Federal Advisory Committee on Nuclear Failsafe and Risk Reduction.

(c) MATTERS INCLUDED.—The review conducted pursuant to subsection (b) shall include the following:

(1) Plans for modernizing the covered nuclear systems, including options and recommendations for technical, procedural, and policy measures that could strengthen safeguards, improve the security and reliability of digital technologies, and prevent cyber-related and other risks that could lead to the unauthorized or inadvertent use of nuclear weapons as the result of an accident, misinterpretation, miscalculation, terrorism, unexpected technological breakthrough, or deliberate act.

(2) Options and recommendations for nuclear risk reduction measures, focusing on confidence building and predictability, that the United States could carry out alone or with near-peer adversaries to strengthen safeguards against the unauthorized
or inadvertent use of a nuclear weapon and to reduce nuclear risks.

(d) SUBMISSION.—Not later than one year after the date of the enactment of this Act, the Secretary shall submit to the congressional defense committees the review conducted pursuant to subsection (b).

(e) PREVIOUS REVIEW.—Not later than 30 days after the date of the enactment of this Act, the Secretary shall submit to the congressional defense committees the final report of the Federal Advisory Committee on Nuclear Failsafe and Risk Reduction.

(f) COVERED NUCLEAR SYSTEMS DEFINED.—In this section, the term “covered nuclear systems” means the following systems of the United States:

(1) The nuclear weapons systems.

(2) The nuclear command, control, and communications system.

(3) The integrated tactical warning/attack assessment system.

SEC. 1624. REVIEW OF ENGINEERING AND MANUFACTURING DEVELOPMENT CONTRACT FOR GROUND-BASED STRATEGIC DETERRENT PROGRAM.

(a) FINDINGS.—Congress finds the following:
(1) In September 2020, the Air Force awarded the engineering and manufacturing development contract for the ground-based strategic deterrent program.

(2) The total development cost of the ground-based strategic deterrent program is expected to be approximately $100,000,000,000.

(3) The Vice Chairman of the Joint Chiefs of Staff recently noted that “we have got to make [the ground-based strategic deterrent program] more affordable. A three-stage, solid rocket ICBM should not cost as much as the forecast says it costs for now. After meeting with the program office at Northrop Grumman multiple times I think that program can come in significantly cheaper. It’s designed correctly. It’s a digital engineering process that should be able to build things quickly and much more effectively.”

(4) The Air Force has placed significant importance on digital engineering in achieving cost and schedule requirements with respect to the ground-based strategic deterrent program.

(b) REVIEW.—

(1) REQUIREMENT.—The Secretary of the Air Force shall provide for the conduct of a review of
the implementation and the execution of the engineering and manufacturing development contract for the ground-based strategic deterrent program.

(2) MATTERS INCLUDED.—The review under paragraph (1) shall include the following:

(A) An analysis of the ability of the Air Force to implement industry best practices during the engineering and manufacturing development phase of the ground-based strategic deterrent program.

(B) A review of the challenges the Air Force faces in implementing such industry best practices.

(C) A review of the ability of the Air Force to leverage digital engineering during such engineering and manufacturing development phase.

(D) A review of any options that may be available to the Air Force to reduce cost and introduce competition within the operations and maintenance phase of the ground-based strategic deterrent program.

(E) Recommendations to improve the cost, schedule, and program management of the ground-based strategic deterrent program.
1034

(3) EXPERTISE.—The Secretary shall ensure that the review under paragraph (1) is conducted by individuals from the public and private sector, including not fewer than two individuals—

(B) independently validated by the Director of Cost Assessment and Program Evaluation.

(2) A certification that the future-years defense program submitted to Congress under section 221 of title 10, United States Code, includes, or will include, estimated funding for the program in the amounts specified in the cost estimate under paragraph (1).
(3) A copy of the justification and approval documentation regarding the Secretary determining to award a sole-source contract for the program, including with respect to how the Secretary will manage the cost of the program in the absence of competition.

(b) BRIEFING.—Not later than 90 days after the date of the enactment of this Act, the Secretary of the Air Force shall provide to the congressional defense committees a briefing on the execution of the engineering and manufacturing development contract for the long-range standoff weapon, including with respect to—

(1) how the timely development of the long-range standoff weapon may serve as a hedge to delays in other nuclear modernization efforts;

(2) the effects of potential delays in the W80–4 warhead program on the ability of the long-range standoff weapon to achieve the initial operational capability schedule under section 217 of the National Defense Authorization Act for Fiscal Year 2014 (Public Law 113–66; 127 Stat. 706), as most recently amended by section 1668 of the National Defense Authorization Act for Fiscal Year 2020 (Public Law 116–92; 133 Stat. 1774);
(3) options to adjust the budget profile of the long-range standoff weapon program to ensure the program remains on schedule;

SEC. 1627. LIMITATION ON AVAILABILITY OF CERTAIN FUNDS UNTIL SUBMISSION OF INFORMATION RELATING TO PROPOSED BUDGET FOR NUCLEAR-ARMED SEA-LAUNCHED CRUISE MISSILE.

Of the funds authorized to be appropriated by this Act or otherwise made available for fiscal year 2022 for the Department of Defense for travel by any personnel of the Office of the Secretary of the Navy, not more than 75 percent may be obligated or expended until the Secretary of the Navy submits to the congressional defense committees all written communications by personnel of the Department of Defense regarding the proposed budget amount or limitation for the nuclear-armed sea-launched cruise missile contained in the defense budget materials (as defined by section 231(f) of title 10, United States Code) for fiscal year 2022.
SEC. 1628. LIMITATION ON AVAILABILITY OF CERTAIN FUNDS UNTIL SUBMISSION OF INFORMATION RELATING TO NUCLEAR-ARMED SEA-LAUNCHED CRUISE MISSILE.

Not later than March 1, 2022, and annually thereafter until the date on which the ground-based strategic deterrent weapon achieves initial operating capability, the Chairman of the Joint Chiefs of Staff shall certify to the congressional defense committees whether the state of the readiness of Minuteman III intercontinental ballistic missiles requires placing heavy bombers equipped with nuclear
gravity bombs or air-launched nuclear cruise missiles, and
associated refueling tanker aircraft, on alert status.

SEC. 1630. COST ESTIMATE TO RE-ALERT LONG-RANGE
BOMBERS.

(a) FINDINGS.—Congress finds the following:

(1) On April 20th, 2021, before the Committee
on Armed Services of the Senate, the Commander of
the United States Strategic Command, Admiral
Charles A. Richard, said that the basic design cri-
teria in the triad is that “you cannot allow a failure
of any one leg of the triad to prevent you from being
able to do everything the President has ordered you
to do.”.

(2) Admiral Richard further stated that in the
event of one leg atrophying, “You are completely de-
pendent on the submarine leg, and I’ve already told
the Secretary of Defense that under those conditions
I would request to re-alert the bombers.”.

(b) COST ESTIMATE.—The Secretary of the Air
Force shall develop a cost estimate with respect to re-
alerting long-range bombers in the absence of a ground-
based leg of the nuclear triad.
SEC. 1631. NOTIFICATION REGARDING INTERCONTINENTAL BALLISTIC MISSILES OF CHINA.

(a) REQUIREMENT.—If the Commander of the United States Strategic Command determines that the number of intercontinental ballistic missiles in the active inventory of China exceeds the number of intercontinental ballistic missiles in the active inventory of the United States, or that the number of nuclear warheads equipped on such missiles of China exceeds the number of nuclear warheads equipped on such missiles of the United States, the Commander shall submit to the congressional defense committees—

(1) a notification of such determination;

(2) an assessment of the composition of the intercontinental ballistic missiles of China, including the types of nuclear warheads equipped on such missiles; and

(1) 15 days after the date on which the covered review is initiated.

(2) 15 days after the date of the enactment of this Act.

(b) COVERED REVIEW.—In this section, the term “covered review” means any review initiated in 2021 or 2022 by a federally funded research and development center regarding a service life extension program for Minuteman III intercontinental ballistic missiles.

SEC. 1633. SENSE OF CONGRESS REGARDING NUCLEAR POSTURE REVIEW.

It is the sense of Congress that the nuclear posture review initiated in 2021 should address the following:

Subtitle D—Missile Defense Programs

SEC. 1641. DIRECTED ENERGY PROGRAMS FOR BALLISTIC AND HYPERSONIC MISSILE DEFENSE.

(a) FINDINGS.—Congress finds the following:

(1) In the fiscal year 2021 budget request of the Department of Defense, the Secretary of Defense removed all funding from the Missile Defense Agency to conduct research, engineering, or development for directed energy technologies that could be applicable for ballistic and hypersonic missile de-
fense, and this removal of funding continued in the fiscal year 2022 budget request of the Department, despite Congress appropriating funding for fiscal year 2021 for these efforts.

(2) In January 2020, an independent Senior Executive Review Team noted that “If successfully developed, the unique features of diode pumped alkali laser, an efficient electrically powered, relatively short wavelength gas laser with the potential to deliver megawatt power with near diffraction limited beam quality from a single aperture would provide the Department of Defense and the Missile Defense Agency with an important strategic technology with the potential for an attractive size, weight, and power. Such a system would have potential capability use cases across all services/agencies.”. However, the Under Secretary of Defense for Research and Engineering did not support continued investigation of this promising technology by the Missile Defense Agency.

(3) In addition to diode pumped alkali lasers, there are other directed energy applications that have the potential to contribute to ballistic and hypersonic missile defense architecture, including microwave and short pulse lasers technologies.
(b) Sense of Congress.—It is the sense of Congress that the Director of the Missile Defense Agency should continue to fund promising directed energy technologies for ballistic and hypersonic missile defense, in coordination with the directed energy roadmap of the Under Secretary of Defense for Research and Engineering, with the intent to transfer technologies to the military departments as appropriate.

(c) Authority of the Missile Defense Agency.—

(1) Delegation.—The Secretary of Defense shall delegate to the Director of the Missile Defense Agency the authority to budget for, direct, and manage directed energy programs applicable for ballistic and hypersonic missile defense missions, in coordination with other directed energy efforts of the Department of Defense.

(2) Prioritization.—In budgeting for and directing directed energy programs applicable for ballistic and hypersonic defensive missions pursuant to paragraph (1), the Director of the Missile Defense Agency shall—

(A) prioritize the early research and development of technologies; and
(B) address the transition of such technologies to industry to support future operationally relevant capabilities.

(B) certifies to the congressional defense committees that the Secretary has coordinated the changes with, and received the views of, the individuals referred to in subparagraph (A); (C) submits to the congressional defense committees a report that contains—
   (i) a description of the changes, the rationale for the changes, and the views of the individuals referred to in subparagraph (A) with respect to such changes;
   (ii) a certification that the changes will not impair the missile defense capabilities of the United States nor degrade the unique special acquisition authorities of the Missile Defense Agency; and
   (iii) with respect to any such changes to Department of Defense Directive 5134.09, a final draft of the proposed modified directive, both in an electronic format and in a hard copy format;
(D) with respect to any such changes to Department of Defense Directive 5134.09, provides to such committees a briefing on the proposed modified directive described in subparagraph (C)(ii); and
(E) a period of 120 days has elapsed following the date on which the Secretary submits the report under subparagraph (C).

(2) NON-STANDARD ACQUISITION AND REQUIREMENTS PROCESSES AND RESPONSIBILITIES DESCRIBED.—The non-standard acquisition and requirements processes and responsibilities described in this paragraph are such processes and responsibilities described in—

(A) the memorandum of the Secretary of Defense titled “Missile Defense Program Direction” signed on January 2, 2002;

(B) Department of Defense Directive 5134.09, as in effect on the date of the enactment of this Act; and

(C) United States Strategic Command Instruction 538–3 titled “MD Warfighter Involvement Process”.

(b) CONFORMING AMENDMENTS.—

(1) FY20 NDAA.—Section 1688 of the National Defense Authorization Act for Fiscal Year 2020 (Public Law 116–92; 133 Stat. 1787) is amended—

(A) by striking subsection (b); and

(B) by redesignating subsection (c) as subsection (b).

(A) by striking subsection (c); and

(B) by redesignating subsection (d) as subsection (c).

SEC. 1643. MISSILE DEFENSE RADAR IN HAWAII.

(a) SENSE OF CONGRESS.—It is the sense of Congress that—

(1) Hawaii should have discrimination radar coverage against intercontinental ballistic missiles that is equivalent to such coverage provided to the contiguous United States and Alaska once the long range discrimination radar achieves operational capability at Clear Air Force Base, Alaska; and

(2) to achieve such equivalent discrimination radar coverage, the Secretary of Defense, acting through the Director of the Missile Defense Agency, should—

(A) restore the discrimination radar for homeland defense planned to be located in Hawaii; and

(B) request adequate funding for the radar in the future-years defense program submitted
to Congress under section 221 of title 10, United States Code, for the radar to achieve operational capability by not later than December 31, 2028, when the next generation interceptor is anticipated to achieve initial operating capability.

(b) CERTIFICATION.—As a part of the defense budget materials (as defined in section 239 of title 10, United States Code) for fiscal year 2023, the Director of the Missile Defense Agency shall certify to the congressional defense committees that—

(1) the future-years defense program submitted to Congress under section 221 of title 10, United States Code, in 2022 includes adequate amounts of estimated funding to develop, construct, test, and integrate into the missile defense system the discrimination radar for homeland defense planned to be located in Hawaii; and

(2) such radar and associated in-flight interceptor communications system data terminal will be operational by not later than December 31, 2028.

(2) address robust discrimination and electromagnetic compatibility with other sensors;

(3) engage directly, or coordinate engagements with other integrated air and missile defense systems, to defeat the spectrum of cruise, ballistic, and hypersonic threats;

(4) leverage existing programs of record to expedite the development and deployment of the architecture during the five-year period beginning on the date of the enactment of this Act, with an objective of achieving initial operating capability in 2025, including with respect to—

(A) the Aegis ballistic missile defense system;

(B) standard missile–3 and –6 variants;

the Secretary shall submit to the congressional defense committees a certification that—

(1) the Secretary has determined that such tour is in the national security interest of the United States, including the justifications for such determination; and

(2) the Secretary will not share any technical data relating to the covered site with the foreign nationals.

(b) TIMING.—The Secretary may not conduct a tour described in subsection (a) until a period of 45 days has elapsed following the date on which the Secretary submits the certification for that tour under such subsection.
