113th Congress
1st Session

H. Res. __

H.R. 3 - Northern Route Approval Act

1. Structured rule.
2. Provides 90 minutes of general debate equally divided among and controlled by the respective chairs and ranking minority members of the Committees on Transportation and Infrastructure, Energy and Commerce, and Natural Resources.
3. Waives all points of order against consideration of the bill.
4. Makes in order as original text for purpose of amendment an amendment in the nature of a substitute consisting of the text of Rules Committee Print 113-11 and provides that it shall be considered as read.
5. Waives all points of order against the amendment in the nature of a substitute.
6. Makes in order only those further amendments printed in the Rules Committee report. Each such amendment may be offered only in the order printed in the report, may be offered only by a Member designated in the report, shall be considered as read, shall be debatable for the time specified in the report equally divided and controlled by the proponent and an opponent, shall not be subject to amendment, and shall not be subject to a demand for division of the question.
7. Waives all points of order against the amendments printed in the report.
8. Provides one motion to recommit with or without instructions.

___

RESOLUTION

Resolved, That at any time after the adoption of this resolution the Speaker may, pursuant to clause 2(b) of rule XVIII, declare the House resolved into the Committee of the Whole House on the state of the Union for consideration of the bill (H.R. 3) to approve the construction, operation, and maintenance of the Keystone XL
pipeline, and for other purposes. The first reading of the bill shall be dispensed with. All points of order against consideration of the bill are waived. General debate shall be confined to the bill and shall not exceed 90 minutes equally divided among and controlled by the respective chairs and ranking minority members of the Committees on Transportation and Infrastructure, Energy and Commerce, and Natural Resources. After general debate the bill shall be considered for amendment under the five-minute rule. In lieu of the amendments in the nature of a substitute recommended by the Committees on Transportation and Infrastructure, Energy and Commerce, and Natural Resources now printed in the bill, it shall be in order to consider as an original bill for the purpose of amendment under the five-minute rule an amendment in the nature of a substitute consisting of the text of Rules Committee Print 113-11. That amendment in the nature of a substitute shall be considered as read. All points of order against that amendment in the nature of a substitute are waived. No amendment to that amendment in the nature of a substitute shall be in order except those printed in the report of the Committee on Rules accompanying this resolution. Each such amendment may be offered only in the order printed in the report, may be offered only by a Member designated in the report, shall be considered as read, shall be debatable for the time specified in the report equally divided and controlled by the proponent and an opponent, shall not be subject to amendment, and shall not be subject to a demand for division of the question in the House or in the Committee of the Whole. All points of order against such amendments are waived. At the conclusion of consideration of the bill for amendment the Committee shall rise and report the bill to the House with such amendments as may have been adopted. Any Member may demand a separate vote in the House on any amendment adopted in the Committee of the Whole to the bill or to the amendment in the nature of a substitute made in order as original text. The previous question shall be considered as ordered on the bill and amendments thereto to final passage without intervening motion except one motion to recommit with or without instructions.

SUMMARY OF AMENDMENTS PROPOSED TO BE MADE IN ORDER

(summaries derived from information provided by sponsors)

incremental greenhouse gas emissions” in the United States, resulting in additional greenhouse gas emissions equal to 4.3 million passenger vehicles. Also provides that the bill will not go into effect unless the President finds that TransCanada or tar sands producers will fully offset the additional greenhouse gas emissions.

3. Johnson, Hank (GA)
   #20 Requires a study on the health impacts of increased air pollution in communities surrounding the refineries that will transport diluted bitumen through the proposed Keystone XL pipeline.

4. Connolly (VA)
   #22 Requires a threat assessment of pipeline vulnerabilities to terrorist attack and corrective actions necessary to protect the pipeline from such an attack and to mitigate any resulting spill.

5. Rahall (WV), DeFazio (OR)
   #16 Strikes section 3 of the bill (Keystone XL Permit Approval). Section 3 eliminates the requirement for a Presidential Permit to construct the Keystone XL pipeline across an international border. Section 3 further deems the new application for the Keystone XL pipeline approved, based on a final environmental impact statement issued by the U.S. Department of State for a different pipeline route.

6. Esty (CT)
   #12 Removes the mandate to allow one specifically named company to never receive appropriate oversight through the permit process for operation and/or maintenance – in perpetuity, while allowing construction permit fast-track.

7. Jackson Lee (TX)
   #6 Lengthens the time period for filing a claim under the Act from 60 days to 1 year.

8. Chu (CA), Polis (CO), Connolly (VA)
   #23 Requires the GAO to conduct a study and prepare a report of the Keystone XL pipeline to determine the total projected costs of pipeline spill cleanup, including the potential impacts of a petroleum spill on public health and the environment and the quantity and quality of water available for agricultural and municipal purposes.

9. Cohen (TN)
   #10 Requires TransCanada to submit its oil spill response plan, and any updates to the plan, to the Governors of each State in which the Keystone XL pipeline operates. TransCanada is required to develop such a plan under current law and regulations; only certain Federal agencies receive and review the plan.

10. Holt (NJ)
    #2 Increases American energy independence by requiring that all oil and refined fuels transported through the Keystone XL Pipeline be used here in the United States and not exported, unless the President finds that an exception is required by law or in the national interest.
