<td>Addresses pension reforms in two areas. First, the bipartisan pension reforms in Division O will permit trustees of severely underfunded plans to adjust vested benefits, enabling deeply troubled plans to survive without a federal bailout; require approval by plan participants of any proposed benefit adjustments that take effect, with a fail-safe mechanism for those plans that present a systemic risk the multiemployer pension system; provide participant protections to safeguard the most vulnerable retirees, including disabled retirees and individuals age 75 and older; give the Pension Benefit Guaranty Corporation (PBGC) the authority to take earlier action to help save failing plans, thereby reducing potential future costs; and adjust the premium structure in order to place the PBGC on more firm financial ground. Second, the bipartisan amendments in Division P amend the rules relating to PBGC enforcement and the rules governing certain charity and nonprofit pension plans. Also provides for the budgetary treatment of these divisions.</td>
