Special Rule Types

Open
Allows any Member to offer an amendment under the five minute rule. Amendments that do not comply with the Rules of the House can be offered, but any Member can raise a point of order against them.

Modified Open
Permits general debate and allows any Member to offer an amendment under the five minute rule subject only to an overall time limit on the amendment process, and/or a requirement that amendments be pre-printed in the Congressional Record one or more days in advance.

Structured (Modified Closed)
Allows the Rules Committee Majority to limit the amendments that may be offered to those designated in the special rule. These deadlines are announced via Dear Colleague letters sent to every office in the House.

Closed
Permits debate for a certain period of time - usually an hour - but does not allow any amendments to be offered.

Conference Report
If the House and Senate each have a version of a bill but their versions differ, the traditional way to resolve their differences is to “go to conference” and establish a bicameral conference committee to negotiate a compromise version. The recommendation submitted by the conference committee in the form of a conference report is almost always brought up in the House and Senate for a clean up or down vote, with no amendments allowed to be offered. A special rule can either make in order a motion to go to conference with the Senate on a bill, or it can make in order a vote on a conference report itself, once the conference committee has completed its work.

“Ping-Pong”
The House and Senate must pass identical versions of a bill before the President can sign it into law. If the two Houses’ versions of the bill differ, something must be done to resolve the differences. If the bodies do not want to go to conference, they can decide to pass amendments back and forth between the Houses until they agree, which we informally refer to as “ping-pong.”

Same Day or Martial Law
Under House Rules, special rules cannot be considered in the House until the next legislative day after they have been reported from the Rules Committee, unless this requirement is waived by a two-thirds vote. However, if the Majority plans at least a day in advance, they can report a same day rule, which grants the Committee the ability to bring a future special rule to the floor on the same day that it is reported. The same day rule must first be approved by the House before it can be used by the Rules Committee.

Suspension
The most common way for bills to be considered in the House is under so-called “suspension of the rules.” It requires a two-thirds vote to pass, but none of the restrictions or limitations of the standing rules of the House apply. This is generally done for the bills that are non-controversial, and it helps to expedite consideration and passage of a measure. Suspensions receive 40 minutes of debate, equally divided, and are typically at the beginning of the week. If the Majority wants to consider bills under suspension of the rules on a day other than Monday, Tuesday or Wednesday, then the Rules Committee must report a special rule that allows suspension votes on a different day.
Amendment Filing Instructions

The filing of any amendment with the Rules Committee is a dual-part process; amendments must be submitted both electronically and physically.

Electronic Submission Instructions

The electronic submission of amendments is done by going to http://rules.house.gov/ and selecting the main header “Amendments.” The link to the Amendment E-login can be found on this page.

The Amendment E-Login Form will request the following information:

- Bill Number - Contact’s Email Address
- Sponsor - Leg. Counsel Caption # (Top left corner – i.e., Name.001):
- Co-Sponsors - Description (1 – 2 Sentences)
- Office Phone - Does the Member wish to Testify

At the bottom of the E-Login Form, you must attach your amendment PDF. To comply with the Committee on House Administration's document standards for the House of Representatives, the amendment PDF file must be searchable, meaning that there can be no handwritten changes; files received by member offices directly from Legislative Counsel meet this requirement.

Press send when you’re ready to submit your amendment.

Hard Copy Submission Instructions

To complete the amendment submission process, deliver the following to H-312 The Capitol after submitting amendments electronically:

1. One (1) completed copy of the amendment submission form, which can be found online at: http://rules.house.gov/sites/republicans.rules.house.gov/files/114/PDF/114AmdtSubForm.pdf
2. One brief (1-2 sentences) summary of the amendment that matches the Amendment E-Login Form description.
3. Thirty (30) copies of the amendment (must be stapled if multiple pages; the copies may be double-sided).

Submitting a Revised Amendment

The steps outlined above must also be followed when submitting a revision of your amendment. The only differences are as follows:

1. The brief (1-2 sentences) summary of the amendment will now describe how the amendment has been changed.
2. The hardcopies will include a handwritten “R” and the assigned amendment # in the upper right hand corner of each copy. Do NOT write the number on the PDF that you submit electronically.
The Vote on the Previous Question
What it Really Means

This vote, the vote on whether to order the previous question on a special rule, is not merely a procedural vote. A vote against ordering the previous question is a vote against the Republican majority agenda and a vote to allow the Democratic minority to offer an alternative plan. It is a vote about what the House should be debating.

Mr. Clarence Cannon's Precedents of the House of Representatives (VI, 308-311), describes the vote on the previous question on the rule as ``a motion to direct or control the consideration of the subject before the House being made by the Member in charge." To defeat the previous question is to give the opposition a chance to decide the subject before the House. Cannon cites the Speaker's ruling of January 13, 1920, to the effect that ``the refusal of the House to sustain the demand for the previous question passes the control of the resolution to the opposition" in order to offer an amendment. On March 15, 1909, a member of the majority party offered a rule resolution. The House defeated the previous question and a member of the opposition rose to a parliamentary inquiry, asking who was entitled to recognition. Speaker Joseph G. Cannon (R-Illinois) said: ``The previous question having been refused, the gentleman from New York, Mr. Fitzgerald, who had asked the gentleman to yield to him for an amendment, is entitled to the first recognition."

The Republican majority may say ``the vote on the previous question is simply a vote on whether to proceed to an immediate vote on adopting the resolution ..... [and] has no substantive legislative or policy implications whatsoever." But that is not what they have always said. Listen to the Republican Leadership Manual on the Legislative Process in the United States House of Representatives, (6th edition, page 135). Here's how the Republicans describe the previous question vote in their own manual: ``Although it is generally not possible to amend the rule because the majority Member controlling the time will not yield for the purpose of offering an amendment, the same result may be achieved by voting down the previous question on the rule ..... When the motion for the previous question is defeated, control of the time passes to the Member who led the opposition to ordering the previous question. That Member, because he then controls the time, may offer an amendment to the rule, or yield for the purpose of amendment."

In Deschler's Procedure in the U.S. House of Representatives, the subchapter titled ``Amending Special Rules" states: ``a refusal to order the previous question on such a rule [a special rule reported from the Committee on Rules] opens the resolution to amendment and further debate." (Chapter 21, section 21.2) Section 21.3 continues: ``Upon rejection of the motion for the previous question on a resolution reported from the Committee on Rules, control shifts to the Member leading the opposition to the previous question, who may offer a proper amendment or motion and who controls the time for debate thereon."

Clearly, the vote on the previous question on a rule does have substantive policy implications. It is one of the only available tools for those who oppose the Republican majority's agenda and allows those with alternative views the opportunity to offer an alternative plan.
